Vol. 1 number 1

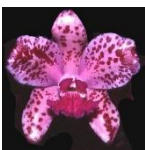

Welcome to our first newsletter. We intend on making this a regular feature. We hope you find our newsletters both of interest and useful in your time with orchids.

## A little about Rosella Orchids

Rosella Orchids is a family owned and run business specialising in breeding and growing quality orchids, particularly cattleyas in a stunning array of colours and sizes. Since moving from Clunes in 2006 we have now re-established our nursery in South Grafton and have worked on expanding the set up and stock so that we can now offer an enormous range of orchids from tube stock through to large flowering plants.

Many of the plants in our stock are from our own breeding and are not available anywhere else.

## Cattleya amethystoglossa 'Jaguar' AD-AM/AOC

Jaguar is a highly awarded amethystoglossa having received an AD for colour and flower markings and more recently, an AM for flower quality.

Rosella Orchids has a number of clones of this outstanding cattleya available for sale. We have plants from 80mm t through to extra-large flowering size plants. Plants in 80mm pots are \$15 (+P&H), plants NFS in 120mm (ltd) = \$30 and large and XL plants are available by contacting Allan. Prices will vary according to size. I am sure we can do a deal if you buy more than 1 of these plants as well as save on postage. Now everyone can enjoy one (or more) of these outstanding orchids in their collection.
